Project Name:- Room-Rover [Live link](#) Github Link ([Client](#) , [Server](#))

Overview: A Room-Rover where users can browse rooms, make bookings, and leave reviews, built with React, JWT authentication, and Google login.

Features:

- **Room Booking:** Select rooms, view details, and make bookings.
- **My Bookings:** View and manage current bookings (cancel, update dates).
- **Map:** Explore hotel location through an interactive map.

Project Name: Visa Navigator [Live link](#) Github Link ([Client](#) , [Server](#))

Overview: An all-in-one platform providing visa information, application procedures, and the ability to apply for visas directly online.

Features:

- **View Visa Information:** Access visa types, processing times, fees, and required documents.
- **Add New Visa:** Contribute new visa details after logging in.
- **Apply for a Visa:** Submit visa applications via a specific form.

Project Name:- Gadget Galaxy [Live link](#) Github Link ([Client](#))

Overview: Gadget Galaxy is a modern digital platform for effortlessly browsing, managing, and tracking gadgets. Its sleek, fast, and scalable interface centralizes gadget info, discovery, and integrations in one seamless ecosystem.

Features:

- Developed a **seamless shopping cart** with add and remove item functionalities, featuring **auto price updates**.
- Developed **Smart Gadget Search** enabling users to quickly find gadgets by name or category.

Education

Diploma in Computer Science and Engineering
Moulvibazar Polytechnic Institute (2022–Present)
